• Tools & Platforms

Git, GitHub, Bitbucket, Vercel, Netlify, Jira, Figma, Postman

• Performance & Optimization

Code Splitting, Lazy Loading, Image Optimization, Modular Architecture

EDUCATION

Bachelor of Science in Information Technology

University of Education, Lahore – 2021 | GPA: 3.2

EXPERIENCE

React.js Developer | Sakai Technologies

Nov 2023 – Present, Lahore

- Contributed the development of key logistics modules including Proforma Invoice generation, GDN creation, stock reservation & allocation and shipment tracking workflows.
- Contributed to the full development of a comprehensive HR module encompassing attendance tracking, payroll processing, employee profiles, staff requests, asset management and dashboard integration.

React / Next.js Developer

LastingSales – Aug 2022 to 2023 | Lahore

- Built essential CRM modules like the Deals Table, Dashboard, and Drag & Drop view in Next.js to streamline how sales teams manage leads.
- Used SSR, SSG, dynamic and nested routing, and middleware to boost performance and SEO.

React.js Developer | Hadi Telecom

Nov 2021 – 2022, Lahore

- One of my significant achievements is the Zong VPBX Project. Contributed to the frontend development of **Zong VPBX**, a platform used by 46,000+ users from 4,000+ companies including TCS, Postex, and Faisal Movers.
- Helped implement key features like IVR menus, call recording, and SMS functionality.
- Worked collaboratively with cross-functional teams in an Agile environment to deliver features on time and improve performance and usability.

PROJECTS

ERP System

Sakai Technologies – Nov 2023 to Present

Tech: React.js, Redux Toolkit, TypeScript, Styled Components, MUI, Chart.js

Built an ERP system that streamlines core business processes like logistics, HR and finance, helping clients improve efficiency, reduce manual work, and make informed decisions.

URL: **confidential**

HR System

Sakai Technologies – Nov 2023 to Present

Tech: React.js, Redux Toolkit, TypeScript, Styled Components, MUI, Chart.js

Built the HR module which simplifies employee management by handling attendance, payroll, profiles and requests. It help clients save time, ensure accuracy and improve workforce oversight..

URL: **confidential**

LastingSales CRM

LastingSales – Aug 2022 to 2023

Tech: Next.js, Tailwind, Material UI

Developed the CRM's lead distribution system, pulling in leads from Facebook, WhatsApp, and SMS. Improved visibility and control for sales teams.

URL: app.lastingsales.com

ZongCap (VPBX)

Hadi Telecom – Nov 2021 to 2022

Tech: React.js, Redux Toolkit

Built a Virtual PBX platform that helps businesses automate communication through features like IVR, call tracking, and campaign tools.

URL: zong-cap.com.pk

Rental Car Showcase (Self-Learning Project)

Tech: Next.js, Headless UI

Created a slick, responsive car showcase app with dynamic pagination and external API integration. Achieved 60% faster image loading using optimization techniques.
